EXECUTIVE SUMMARY **3**

1.1 DESCRIPTION OF THE DELIVERABLE CONTENT AND PURPOSE 3

1.2 BRIEF DESCRIPTION OF THE STATE OF THE ART AND THE INNOVATION BREAKTHROUGHS 3

1.3 CORRECTIVE ACTION (IF RELEVANT) 3

1.4 IPR ISSUES (IF RELEVANT) 3

EXECUTIVE SUMMARY

1.1 Description of the deliverable content and purpose

Deliverable D6.2: Web interface for open innovation environment. See mmama.eu under open innovation platform.

1.2 Brief description of the state of the art and the innovation breakthroughs

NA

1.3 Corrective action (if relevant)

NA

1.4 IPR issues (if relevant)

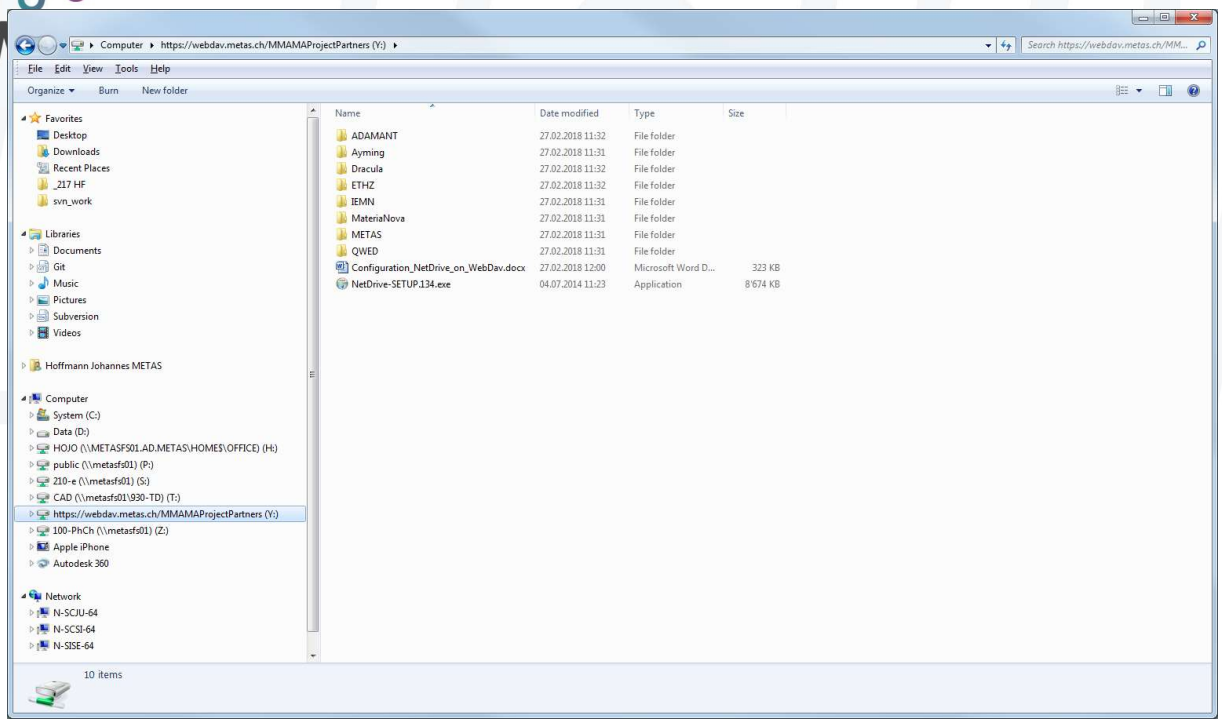
NA

2 OPEN INNOVATION ENVIRONMENT

2.1 Access

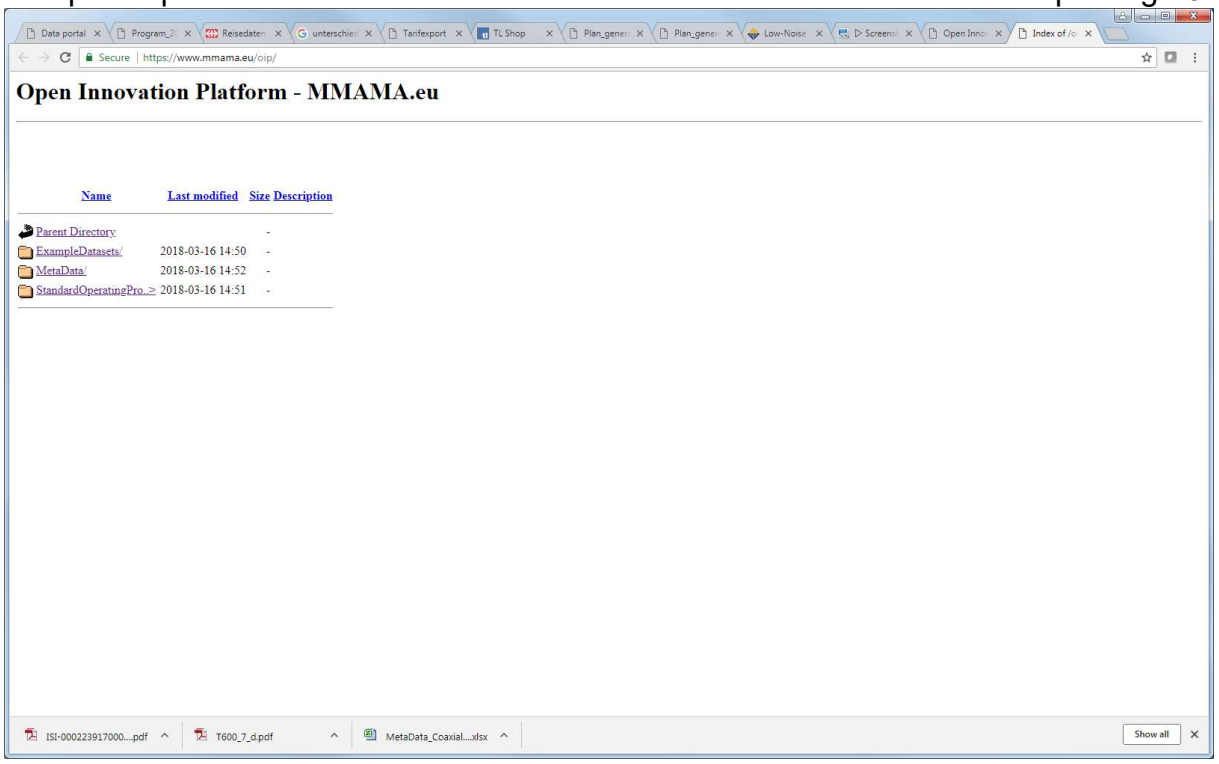
The open innovation environment has three levels of access. The first level is public and can be accessed through the website www.mmama.eu under OPEN INNOVATION PLATFORM.

The second level of access is for stakeholders and it is realized with a webdav account. All project partners and stakeholders have read and write access to this webdav share. The webdav account can be linked to a network drive and thus it can be accessed like any other folder on a personal computer. The third level of access is for partners only and consists or read and write access to a second webdav share. This should facilitate the information exchange among partners. Additionally the partners were informed in an initial email about who is participating and accessing the webdav share.



2.2 Content

The public part will contain the documents defined as deliverables in work package 6.



The content of the webdav shares is not defined. It is expected that data sets and program codes are exchanged through this share.
